

Green Seed of the Week

A weekly sustainability tip for our Q300 Community

Support Black leaders in the fight for climate justice.

True climate justice must equal racial justice because BIPOC communities are disproportionately affected by climate change. In honor of Black History Month, we encourage our community to support these Black climate leaders:

Sharon Lavigne, founder of Rise St. James, in their fight against "Cancer Alley" company, Formosa Plastics: <https://bit.ly/3st4gfW>

Dianna Rose and local Queens farmers markets & food artisans by shopping here: <https://www.chaecorp.com/>

Or donating here: <https://www.gofundme.com/f/essential-kitchen-community-space>

And follow **#TheEarthStewardess**, Doria Brown, on Instagram because young climate leaders are building our future!

Reduction Meter- This week's tip benefits our planet and ourselves by reducing:

Waste

Transport Pollution

Air Pollution

Industrial Processing

Land Use & Degradation
