Carecycle is not a non-profit organization. Their goal is to redirect recyclable resources away from landfills and bring them from where they are no longer needed to where they have use or value. Carecycle Foundation supports the fundraising efforts of non-profits and other groups raising funds for worthy causes by paying per pound for donated items, which they can in turn sell abroad. All profits from this drive will benefit the Q300 4th Grade Moving Up and 8th Grade Graduation fundraising efforts.
